PROFESSIONAL SUMMARY

Motivated pre-final year Computer Engineering student with strong foundation in computer engineering and Full Stack Web Development. Proficient in frontend technologies such as HTML, CSS, JavaScript and React, along with backend development using Python and Django. Familiar with working on web applications and databases like MongoDB and MySQL. Eager to apply my skills in real-world projects and continuously learn and grow as a developer.

SKILLS

- Programming Languages: JavaScript, Python
- Frontend Technologies: HTML, CSS, React.js, Angular.js
- Backend Technologies: Django, Node.js
- Databases: MongoDB, MySQL
- Tools & Platforms: Git, GitHub, VS Code, Postman
- Soft Skills: Teamwork, Time management, Task prioritization

PROJECTS

- Smart Workforce Resource Allocation System (SWRAS)
 - Built a full stack platform for managing employee attendance, payroll, leave and task distribution. Integrated rolebased access control and connected client side with server using React, Node.js and MongoDB.
- Smart City Management System
 - Designed a web-based solution for reporting infrastructure issues and monitoring complaint progress. Established an administrative panel to oversee requests, announcements and service activities.
- Service Management System
 - Created an application to organize customer requests and service workflows with status tracking. Managed data handling operations including create, update, retrieve and delete functionality through backend integration.

EDUCATION

Bachelor of Technology · Computer Engineering · Charutar Vidhya Mandal University Madhuben and Bhanubhai Patel Institute of Technology Anand	2023 – 2027 CGPA: 7.97/10.0
12 th · Gujarat Board - GSHSEB Smt M. Y. High School Dahod, Gujarat	2023 53.69%
10 th · Gujarat Board - GSHSEB Smt M. Y. High School Dahod, Gujarat	2021 64.83%

Certificates

Artificial Intelligence and Machine Learning · Code Unnati Program
